Depth	29.6"	Depth	6"

* Width does not include staging pan

Food preparation has never been easier or quicker than with the MBT-1, Mobile Breading Table. You can have your product ready to go in minutes.

As food is prepared the staging tray becomes very useful. It can be used for either holding your breaded product or as a fryer loading station. The staging tray can be mounted on the left or right side for convenience.

In the bottom of the MBT-1 is a convenient storage area that is designed to hold two 18x26 sheet pans.

The MBT-1 makes cleanup a breeze. Solid stainless steel construction allows you to just wipe down the table and rinse the pans in the sink or put them in the dishwasher.
